2/16/22

FOR IMMEDIATE RELEASE

ALPI PAC fully supports the letter released by The Congress of the United States issued on 2/16/2022. 165 Members of Congress addressed a letter to the Honorable Joseph R. Biden, President of the United States, in which they categorically oppose any “guarantees” the Iranian regime is requesting for the US sanctions never be re-imposed as long as they comply with the terms of an agreement being negotiated in Vienna, without formal Congressional approval.

The referenced letter aligns precisely with the ALPI PAC mission that, first and foremost supports and protects the United States government interests, and second, abolish any international terrorist organizations that threatens international stability and more importantly The United States security. We support the constant pressure building onto the Iranian regime to give up their nuclear program, stop interfering and meddling in regional governments and supporting regional proxy wars lead by Hezbollah in Lebanon.

Attached is a copy of the letter by the Congress of the United States dated 2/16/22.

ALPI (PAC), the nonpartisan political action committee, is the only PAC aimed solely at representing the interests of the United States, and the American Lebanese community. It helps elect candidates for federal office who are responsive to the United States goals and objectives for a free and sovereign Lebanon. It is critically important that all ALPI (PAC) members be active participants in the political process, through either ALPI(PAC) or related ALPI(PAC) legislative programs.
